Griffin, GA 30223-1797
770/228-7231 (x106)
770/228-7208 (fax)
jjordan@uga.edu

Every fall semester brings new energy on college campuses. College campuses get crowded with many eager eyes that have the potential to change the world. Fall is the season of festivals and college football, and it happens to be my favorite season of the year as well. At LSU, my office is within a stone throw of the LSU Tiger Stadium, so football is in my mind as well. I also dread the season since it is an active hurricane season and many SAEA members live in the hurricane-prone region. When I started writing this column, Hurricane Dorian was passing through the coast of Carolinas. My heart aches for those people in the Bahamas who lost life and property. I am relieved that it did not cause significant damage to our friends and SAEA members located on the U.S. East Coast. As I finish this column, news came from Southeastern Texas that people there suffered the wrath of tropical storm Imelda. I hope they will recover soon.

It is time to prepare for the annual meetings. **The SAEA Annual Meetings will be held February 1-4, 2020, in Louisville, Kentucky.** Our meeting will be held at the Omni Louisville Hotel, 400 2nd Street, Louisville, KY 40202. You can make reservations by calling 1-800-THE-OMNI (1-800-843-6664) and mentioning you are with SAAS (Southern Association of Agricultural Scientists). Alternatively, you can also use the lodging reservations link specifically for the SAAS conference:

<https://www.omnihotels.com/hotels/louisville/meetings/2020-annual-meeting-01302020>.

The deadline for the group rate is on January 16. I hope you will plan to join us this year.

The annual meetings will have many teaching, research, and Extension related sessions discussing economic issues relevant and interesting for graduate students, faculty, and industry professionals. Undergrad students attending the meeting on their way to quiz bowl participation will have opportunities to listen to presentations and network with colleagues from other universities. They may even find a graduate school to further their education. In addition, I am organizing an industry panel session and Mike Reed is organizing a policy session. The panelists from these two sessions will be available to interact with students. I encourage meeting attendees to arrive early enough to attend these and many other sessions as these should allow for more networking throughout the meeting.

I do hope many of you made submissions to the relevant categories of the 2020 annual meetings in Louisville, KY. SAEA director Luis Ribera informed the SAEA executive committee that there are a large number of quality papers and posters submitted for presentation consideration this year. We also have some submissions under 3MT and dissertation paper competition categories. It is our first year of launching these two new presentation categories. I hope these new categories will be attractive enough for our students to present their research work in the future. Tim Woods, our President-Elect, has also informed us about receiving several good quality organized symposium proposals. I am looking forward to listening to all these presentations. Louisville is a famous city known for the Kentucky Derby and KFC among other things so there are many things to do and see. I know Jeff Jordan is organizing several networking and social events for students, faculty, and industry partners to enjoy.

Undergraduate participation at the SAEA meetings via the Quiz Bowl has been the hallmark of our meeting success in recent years. Many universities beyond the southeast region participate in this competition. The association wants to see this success to continue! Please ask your department head or undergraduate program director to send students and support them to participate in Quiz Bowl. The SAEA executive committee has increased the travel grant to \$150 per student. The objective is to make it less resource-demanding for departments to send undergraduate students to the Quiz Bowl.

The association has also received applications from many qualified candidates for an award under various categories: Lifetime Achievement Award, Outstanding Teaching of a Course Award, Distinguished Extension Program Award, Outstanding Master's Thesis Award, Emerging Scholars, and Outstanding Ph.D. Dissertation Award. These awards carry prestige, name recognition, and many years of high-quality work conducted by our colleagues.

Michael Reed and Sayed Saghaian will complete their editorial responsibilities on June 30, 2020. The association is looking for a new set of editors. The call was out in the June issue of the newsletter, and it is included again in this issue. Please send your application to me if you are interested in serving as editors.

Please also consider participating in the Recruitment Fair and Employment Booth. The Recruitment Fair offers an excellent opportunity to recruit outstanding students into your graduate programs at a very minimum cost of \$100. This year I would also like to have businesses/companies to set up booths so that they can advertise their business as well as recruit qualified students to work for them. Please encourage business/companies within your network to come to the meeting and set up booths and interview qualified students for jobs.

Every year around this time, we ask volunteers to come forward to continue to make our association the best by running for available officer positions. We have received commitment from an excellent group of people who want to do that. Please read their bios and vision statement included in this newsletter. Candidates for President-Elect are David Anderson, Texas A&M and Lynn Kennedy, LSU and candidates for Director are Rebekka Dudensing, Texas A&M and Sierra Howry, University of Wisconsin, River Falls. I want to thank all of the candidates for their willingness to serve. You will receive instructions for voting soon, so please go through these bios and vote! The SAEA needs continued strong leadership to help deliver the outstanding programs our members have come to expect. I also want to remind you to renew your membership. Membership in the SAEA is inexpensive, and the benefits are enormous! Renewal is easy using our portal found under the "Payments" button on the membership page www.saea.org/membership/.

I want to conclude by thanking committee members, officers, journal co-editors, reviewers, and others who work tirelessly to make SAEA the best. I very much appreciate all you do for the association. I would like to express my special thanks to Jeff Jordan and Nathan Smith for their outstanding service as Treasurer and Secretary, respectively. Please feel free to contact me if you have any ideas or concerns that need to be addressed. Thanks and I look forward to seeing you in Louisville, Kentucky!

Krishna Paudel, SAEA President

2020 SAEA Annual Meeting

Make your plans now to attend the 2020 SAEA Annual Meeting to be held in Louisville, Kentucky, February 1-4, 2020.

What – SAEA Annual Meeting

Where – Omni Louisville Hotel, Louisville, KY

When – February 1-4, 2020

Why – A chance to network and share your work with colleagues.

Registration will begin December 1, 2020. Access the SAAS website at www.saasinc.org for more information about the 2020 meetings. Hotel Information for reservations is below and will be posted to the <http://www.saea.org> website.

Omni Louisville Hotel
400 2nd Street
Louisville, KY 40202

RESERVATIONS: For lodging reservations, click on this link which is specific for our Louisville SAAS conference: <https://www.omnihotels.com/hotels/louisville/meetings/2020-annual-meeting-01302020>.

Or, call the Omni Louisville Hotel at 1-800-THE-OMNI (1-800-843-6664). Be sure to ask for the SAAS (Southern Association of Agricultural Scientists) group rate.

Deadline to reserve lodging: Thursday, January 16, 2020 at 5:00 pm EST (Eastern Standard Time)

RATES: Single/Double \$159
Triple \$169; Quad \$179
(SAAS group rates apply 3 days prior and 3 days after meeting dates, if rooms are available.)

CHECK IN: 3:00 pm

CHECK OUT: 11:00 am (\$60 charge for late check out till 4:00 pm)

NOTE: Early departure fee of one night's room and tax will apply if attendee checks out prior to the confirmed checkout date. To avoid fee, advise hotel at or before checking in of any change in plans.

AIRPORT: Hotel is 5.9 miles (8 minutes) from Louisville International Airport (SDF). Hotel does not provide shuttle to/from airport. Estimated taxi fee is \$28 one way. Estimated Uber or Lyft fee is \$13-17 one way.

PARKING: Hotel has only valet parking. Cost is \$32/night. Click here for public parking lots near the hotel for less cost.

AMENITIES: Complimentary access to fitness center.

2020 ACADEMIC QUIZ BOWL COMPETITION AT THE SAEA ANNUAL MEETING IN LOUISVILLE, KY

Undergraduates and Student Advisors!

Please mark your calendars and start your plans for Louisville! Once again, the Student Section of the SAEA will be coordinating the Academic Quiz Bowl competition, and we are hoping for another record turn-out of schools and student participants. We will again host a graduate program Recruitment Fair which provides graduate program coordinators an opportunity to meet, greet and recruit quiz bowl participants for their respective departments. Please contact Dusty Menzies, Undergraduate Committee Chair, to sign up for the competition. He can be reached by phone at (979) 845-7046 or email d-menzies@tamu.edu. Travel grants are available for students participating in Quiz Bowl. The grant amount is increased to \$150 per student. Also, note that the registration fees for advisors at schools who have not participated in the last three years will be waived.

QUIZ BOWL RECRUITMENT FAIR

Graduate Program Coordinators!

The SAEA Academic Quiz Bowl is great opportunity to recruit participants to your department's graduate program. More than a hundred undergraduate students compete annually representing twelve or more schools. Booths are available for \$100 per table. Departments interested in participating in the Recruitment Fair can sign up on the payments page by visiting: <https://www.saea.org/payments-page/>

BUSINESS INFORMATION/EMPLOYMENT BOOTH

If businesses/companies/universities are interested, they can set up a booth to advertise their entity and recruit employees. Applied economists are known for their well-versed skill sets so this is a great place to hire a new and qualified employee. Booths are available for \$100 per table. Entities interested in participating in the employment booth can sign up on the payments page by visiting: <https://www.saea.org/payments-page/>

CALL FOR APPLICATIONS: JAAE Editors

The SAEA is soliciting applications for new editors for the Journal of Agricultural and Applied Economics (JAAE). The editors serve for three years starting July 1, 2020, through June 30, 2023. The editors work with an editorial team, but editors are responsible for decision making and manuscript review process. During the last few years, journals have been co-edited by two individuals, and these individuals (co-editors) do not have to be located at the same institution. Co-editors are provided with a stipend of \$2,000 per year. The new co-editors will get some training from Cambridge University Press and the current editors sometime in mid-April and formally begin their responsibilities on July 1, 2019.

The JAAE editorial process employs *Scholar One* electronic submission platform to handle manuscripts and to communicate between editors and reviewers. *Scholar One* tracks manuscripts through submission, review, editorial decision, and submission to Cambridge University Press for the production process. Authors can also query this system to know the status of their submitted manuscript.

JAAE publishes articles of high quality relevant to southern agricultural and applied economics issues. The association thanks current editors Michael Reed and Sayed (Mehdi) Saghaian for their tireless service and diligence to ensure that the quality of the accepted journal articles is of a high standard.

If you are interested in serving as an editor, please submit your application electronically in a single pdf file that includes statement of interest, editorial philosophy, and most recent curriculum vitae to Krishna Paudel (kpaudel@agcenter.lsu.edu), SAEA President by September 30, 2019. Decisions will be made by February 2, 2019. Please also feel free to nominate interested candidates who can be solicited for their application materials.

SAEA 2019 Officer Elections

Voting Procedures for SAEA 2019 Officer Elections

All members in good standing (current dues paid) will receive an email message with voting instructions. All ballots must be completed between October 1 and October 31, 2019 to be counted. Submit suggestions for future officers to an Executive Committee member.

Nominations for President-Elect

David Anderson – Texas A&M University

Lynn Kennedy – Louisiana State University

SAEA Nominations for Director

Rebekka Dudensing – Texas A&M University

Sierra Howry - University of Wisconsin-River Falls

David Anderson

David Anderson is a Professor and Extension Economist in the Department of Agricultural Economics at Texas A&M University. He received his B.S. and M.S in Agricultural Economics at the University of Arizona in 1987 and 1990. He received his PhD in Agricultural Economics from Texas A&M University in 1994.

Extension: He is the Texas AgriLife Extension Service livestock and food products marketing economist in the Department of Agricultural Economics. He has published more than 300 Extension publications, 160 popular press articles, and 700 Extension program presentations.

Research: In addition to his 100 percent Extension appointment, David has maintained an active applied research program with 46 refereed journal articles authored or co-authored. He has chaired 28 graduate student committees and been a member of another 67 committees. He has authored or co-authored 138 selected papers at professional meetings.

Teaching: He has taught Ag Economics 614, Applied Policy Analysis, since 1999. While covering the analysis of farm programs, trade, and policy impacts on supply chains as a staple, he has changed topics each year to hit hot topics and the interests of students. Special policy topics have included the economic analysis of transportation, fixed versus flexible exchange rates, dietary guidelines and food policy, energy policy, and animal diseases. The course routinely attracts graduate students from other disciplines including animal science, political science, and the Bush School of Public Policy.

Awards and Service: He has received awards from the SAEA, AAEA, and WAEA for Extension programs and policy contribution. David has been honored 4 times by Texas AgriLife Extension for Superior Service in Extension programs. He served as the Chair of the AAEA Extension Section and has twice chaired the Southern Extension Committee. He has served multiple times as search committee chair and other departmental committees, college of agriculture and life sciences promotion committee, and college award committees.

Vision for SAEA: Throughout my career, I have seen the SAEA as the home for applied work that matters. Maintaining that emphasis is key for our success. The challenge for our association is to remain relevant in a changing world. Yet, I continue to see a vibrant community of scholars involved in our association. Our colleagues across the South are researching issues of importance and our Extension colleagues are extending that learning to broad audiences. Many of the changes we see around us are ones of communication – communicating results. SAEA has an opportunity to foster communication to help our members reach a broader audience. SAEA has long provided an excellent forum for graduate and undergraduate student professional development. The networking opportunity the annual meeting provides has been very valuable to my career. Our association should continue to be flexible and creative in addressing new opportunities, as they arise, to foster and promote the success of our members.

Lynn Kennedy

Lynn Kennedy is the Crescent City Tigers Alumni Professor at Louisiana State University where his teaching and research interests include international trade economics, agricultural trade policy, international agribusiness, and welfare economics. Lynn grew up on an irrigated Cow-Calf operation in Northern Colorado and is still involved with the family farm. He received his B.S. at Colorado State University, his M.S. at the University of Oxford, and Ph.D. at the University of Minnesota.

Research: Lynn's research has focused on determining the impact of domestic and international policies on the international trade of agricultural goods of importance to the United States and their associated welfare implications. In terms of research output, he has published over 50 refereed journal articles, presented over 100 papers, and directed over 30 M.S. theses and Ph.D. dissertations. Journals in which he has published include the American Journal of Agricultural Economics, European Review of Agricultural Economics, Journal of Agricultural and Applied Economics, Journal of Agricultural and Resource Economics, Agricultural and Resource Economics Review, Review of Agricultural Economics, Journal of Policy Modeling, Public Choice, Choices, Agribusiness: An International Journal, and the International Food and Agribusiness Management Review. In terms of research inputs, he has successfully obtained outside grant funding of over 1.8 million dollars to support his research.

Teaching: Kennedy has been recognized for excellence in teaching at all levels. He has consistently taught at least three courses per year. These courses have included introductory microeconomics, the capstone agribusiness course, both senior and graduate level international agricultural trade, and graduate agribusiness research methods. Kennedy coauthored the textbook International Trade and Agriculture with Won W. Koo; this text has been adopted in many Agricultural Economics departments, both in the United States and abroad.

Leadership and Service: Lynn has been actively involved in leadership positions with the International Agricultural Trade Research Consortium (IATRC) and various iterations of the multistate research project on international agricultural trade and agricultural policy. In addition, he has served in a variety of departmental leadership roles including Interim Department Head, Graduate Coordinator, and Undergraduate Agribusiness Internship Coordinator. Kennedy completed the ESCOP/ACOP Leadership Development Program as well as the LSU AgCenter Internal Leadership Program.

Awards: Lynn's research has been recognized through receipt of the LSU Distinguished Faculty Award, the Gamma Sigma Delta Research Award of Merit, and the LSU Rainmaker Award. His teaching program has been recognized through receipt of the LSU College of Agriculture Alumni Excellence in Teaching Award for Outstanding Teacher in the College of Agriculture, the Joseph E. Sedberry, Jr. Foundation Award for Outstanding Graduate Instruction in the LSU College of Agriculture; the Gamma Sigma Delta Teaching Award of Merit, and the Alpha Lambda Delta Freshman Honor Society Award for Superior Instruction of Freshman Students.

Vision for SAEA: The Southern Agricultural Economics Association serves as a forum for communication and professional development for agricultural and applied economists through both its annual meetings and journal. My growth as an agricultural economist has benefited tremendously from participation in the SAEA. It is important to maintain the SAEA as a means for communication and professional development at all levels: undergraduate, graduate, and professional. If elected I will work with the other SAEA officers to maintain and reinforce the programs of the association and seek out additional opportunities for younger economists to engage within and benefit from the association.

Rebekka Dudensing

Rebekka Dudensing is an Associate Professor and Extension Economist for Community Economic Development with the Texas A&M AgriLife Extension Service and Texas A&M AgriLife Research. Rebekka received her Ph.D. in Applied Economics at Clemson University, M.S. in Agricultural and Applied Economics from Texas Tech, and B.S. in Agriculture from Kansas State.

Extension, Research, and Teaching: Dr. Dudensing has a 75/25 extension/research appointment. She works with communities to evaluate opportunities for local and regional economic development and studies the roles of business and social structures in development. Rebekka provides economic analysis for industries, tourism events, and natural disasters, and she specializes in adapting

impact models to unique circumstances. She is particularly interested in the quality-conscious and cost-effective provision of services, including education, healthcare, and transportation, in rural areas. Her applied research is grounded in her extension program and meets the needs of extension clientele while simultaneously serving a broader audience and advancing the methods by which economic development questions are answered. Although she does not have a formal teaching appointment, she both serves on and chairs graduate committees. She guest lectures in classes and provides technical assistance to student researchers from several departments.

Professional Leadership and Service: Rebekka has served on the JAAE and the AAEA Choices editorial councils. She also served through the leadership rotations of the AAEA CRENET section and the Midcontinent Regional Science Association. She chaired the AAEA Extension section's awards committee in 2019. She has served on the Social Sciences Subcommittee of APLU's ESCOP, Southern Rural Development Center Technical and Operational Advisory Committee, and National Association of Community Development Extension Professionals marketing committee (current chair). Rebekka also teaches preschool Sunday school and coaches a 4-H robotics group--it would be weird if a community engagement economist weren't involved in her community.

Professional Honors and Awards: Dr. Dudensing is honored to have received the SAEA Emerging Scholar and AAEA Distinguished Outreach/Extension Program Award - Individual: Less than Ten Years' Experience, both in 2016, as well as the Southern Rural Development Center's Bonnie Teater Early Career Achievement Award in 2017.

Vision for SAEA: One of my favorite things about serving on the JAAE council has been reviewing articles to for the Outstanding Journal Article Award. Almost all JAAE articles are relevant, approachable pieces that address real issues in agriculture and agribusiness, often within the South. SAEA members are doing good academic work, and our research and Extension/outreach efforts often specifically and tangibly address the needs of our regional industries and communities. Within academia, we're facing evolving measures of academic merit and student engagement. We need to be more accountable and more relevant than ever before. Great. We can do that, and SAEA can take the lead. The culture of this association values scientific merit, public relevance, and the synergy of teaching, research, extension, outreach, and service. We can build on SAEA's culture and strong committee participation to create meaningful opportunities for students, faculty and industry partners to engage in networking, service, and professional development. I'd like to create space for members at all levels of their careers to discuss and collaborate around topics of interest. I'm interested in strengthening the association's linkages to industry, which provides crucial connections for our many students who enter the private sector. Such partnerships can provide access to new questions and data. Engaged members and industry relationships are important to ensuring our research remains relevant to local, regional, and national stakeholders.

Sierra Howry

Sierra Howry is an Associate Professor in the Department of Agricultural Economics at University of Wisconsin-River Falls (UWRF). She also serves as the Director of the Ronald E. McNair Post-baccalaureate Achievement Program at UWRF. She earned a Ph.D. in Agricultural Economics (2008) and a M.S. in Economics (2001) from Oklahoma State University and a B.S. in Mathematics (1997) from East Central University in Ada, Oklahoma.

Teaching: Sierra currently holds a 75% teaching 25% directorship appointment. Before starting her tenure at UWRF, Sierra taught at Angelo State University for 5 years at 100% teaching. During the past 11 years, Sierra has taught Ag. Statistics, Graduate Statistics, Farm Management, Financial Management, Ag. Human Resource Management, Natural Resource Management, Small Agribusiness Management, Introduction to Agribusiness, Ag. Marketing, Ag. Product Marketing, mainly at the undergraduate level. She won the 2018 AAEA Distinguished Teaching Award: Less than Ten Years' Experience. She currently advises three student groups, Agribusiness Quiz Bowl, Collegiate Farm Bureau, and Sigma Alpha a professional agricultural sorority.

Director: She is currently the director of the McNair Program which is federally funded and is housed at UW-River Falls. It provides research experiences and graduate school preparation for undergraduate students who are underrepresented and/or first-generation/limited income. This is a 5-year grant totaling \$1.25 million.

Research: Sierra has worked on 12 different undergraduate projects ranging from evaluation of different types of farm profitability (cranberry, corn, soybean, and small grains) to evaluation of landscape types for water efficiency. She has served as chair on a M.S. thesis project. She is currently working on a USDA-Non-Land Grant Colleges of Agriculture (NLGCA) grant totally \$150,000.

Service to the Profession: Co-Chaired for two years and helped run the SAEA undergraduate quiz bowl competition for 11 years. Served as an advisor for four years for the Student Section of the AAEA and helped with the AAEA quiz bowl competitions for 11 years. Past-president of the AAEA Teaching, Learning, and Communication (TLC) Section. Currently on the editorial board for the Applied Economics Teaching Resource (AETR), a new AAEA publication. Member of the Western Agricultural Economics Association and the Wisconsin Economics Association.

Vision for SAEA: I have been a member of the association since 2007 and this association means so much to me. I have always enjoyed attending the meetings and being active with the quiz bowl competition, listening to the quality paper presentations, and networking with my colleagues. Which brings me to my vision for the SAEA. Over the last 11 years, I have watched how the investment in undergraduate's activities has truly helped increase the growth and retention of young members in the association and I plan to continue support these activities. Also, I would like to see increase support for mentorship opportunities for young faculty and encourage their participation in the association's committees. Finally, I would like to see increased participation, to the association, from small regional universities and universities from other regions of the U.S. that are underrepresented at SAEA.

2019-2020 SAEA COMMITTEES

Much of the important work the SAEA performs is done by the committees listed below. The SAEA Executive Committee on behalf of SAEA members would like to thank everyone serving on these committees.

Selected Papers Committee: Luis Ribera, Texas A&M University (2020); Michael Vassalos, Clemson University (2021); Chris Boyer, University of Tennessee (2022).

Lifetime Achievement Award Committee: Bill Herndon, Mississippi State University (2020); Kim Jenson, University of Tennessee (2021); Stephen Devadoss, Texas Tech University (2022).

SAEA Outstanding Extension Program Award Committee: Alan Hodges, University of Florida (2020); Aaron Smith, University of Tennessee (2021), Michael Deliberto, Louisiana State University (2022).

SAEA Outstanding Teaching of a Course Award Committee: Dr. Lanier Nalley, University of Arkansas (2020); Mathew Interis, Mississippi State University (2021); Ram Acharya, New Mexico State University (2022).

Master's Thesis Award Committee: Michee Lachaud, Florida A&M University (2020); Naveen Adusumilli, Louisiana State University (2021); Jeff Luckstead, University of Arkansas. (2022).

Ph.D. Dissertation Award Committee: Ryan Williams, Texas Tech University (2020); Denis Nadolnyak, Auburn University (2021); Ashok Mishra, Arizona State University (2022).

Poster Committee: Daniel Solis, Florida A&M University (2020); Ariun Ishdorj, Texas A&M University (2021); Aditya Khanal, Tennessee State University (2022).

Undergraduate Committee: Dusty Menzies, Texas A&M University; Jerrod Penn, Louisiana State University; Aaron Shew, Arkansas State University.

3MT Thesis Committee: Jim Larson, University of Tennessee (Chair); Kalyn Coatney, Mississippi State University; Jeff Mullen, University of Georgia.

Ph.D. Job Market Paper Competition Committee: Krishna Paudel, Louisiana State University (*Ad Hoc* chair, President, SAEA); Darrel Bosch, Virginia Tech; Ruiqing Miao, Auburn University; Zhifeng Gao, University of Florida.

JAAE Editorial Team: Editors Michael Reed and Sayed Saghaian, University of Kentucky.

JAAE Editorial Council: Jabir Ali, Institute of Cooperative and Corporate Management, India; Bustanul Arifin, University of Lampung, Indonesia; Christopher Boyer, University of Tennessee; Wade Brorsen, Oklahoma State University; Danny Campbell, University of Stirling, Scotland; Bo Chen, Huazhong Agricultural University, China; Rebekka Dudensing, Texas A&M University; Mariah Ehmke, University of Wyoming; Zhifeng Gao, University of Florida; Jill Hobbs, University of Saskatchewan, Canada; Wuyang Hu, Ohio State University; Kim Jenson, University of Tennessee; Ani Katchova, Ohio State University; Nicole Mason, Michigan State University; David Orden, Virginia Tech University; Gokhan Ozertan, Bogazici University, Turkey; Michael Popp, University of Arkansas; Jeffrey Reimer, Oregon State University; Ric Scarpa, Durham University, United Kingdom; Jill Stowe, University of Kentucky; Renato Villano, University of New England, Australia; Nick Vink, Stellenbosch University; Chen Zen, University of Georgia.

Nominating Committee: Past-President Deacue Fields, University of Arkansas; President Krishna Paudel, Louisiana State University; President-Elect Tim Woods, University of Kentucky

Social Planner for 2020 Meetings: Jeff Jordan, University of Georgia; Marco Palma, Texas A&M University

IT/AV Committee for 2020 Meetings: Michael Vassalos, Clemson University; Chris Boyer, University of Tennessee

Outreach and Engagement Committee: Joshua Maples, Oklahoma State University (2020)
