Invitation to submit

The journal *Energies* (ISSN 1996-1073; IF = 2.707) is currently running a Special Issue entitled “*Bioenergy Supply and Demand, Logistics, and New Feedstock Crop Assessment*”. We invite you to contribute to this Special Issue with a comprehensive **Review** paper, **Case Reports**, or full **Original Research Article** reporting the latest experimental and theoretical research progress with high quality results from your group.

For further reading, please follow the link to the Special Issue Website at:

https://www.mdpi.com/journal/energies/special_issues/Bioenergy_Supply_Demand_Logistics_New_Feedstock_Crop_Assessment

The submission deadline is **31 March 2021**. Submitted papers should not be under consideration for publication elsewhere. We also encourage authors to send a short abstract or tentative title to the Editorial Office in advance (energies@mdpi.com).

Energies is a fully open access journal. Open access (unlimited and free access by readers) increases publicity and promotes more frequent citations, as indicated by several studies. Open access is supported by the authors and their institutes. However, manuscripts submitted before the Special Issue deadline could be eligible for discounts.

For further details on the submission process, please see the instructions for authors at the journal website (<https://www.mdpi.com/journal/energies/instructions>).
