

Title: Ph.D. in Agricultural and Applied Economics, emphasis in Agribusiness

University: Texas Tech University

Location: Lubbock, Texas

Description: Two doctoral research assistantships available for graduate student research which includes (but is not limited to) contract design for risk-sharing in sustainable systems and grower/retailer partnerships to create reliable, consistent supply chains.

Qualifications: Applicant must be self-motivated with a good attitude and strong work ethic. Applicant must also possess strong quantitative skills in SAS or Matlab. Well-developed oral and written communication skills are necessary and the ability to work cooperatively within a team setting is required. Students should have strong interest in game theory and experimental economic methods. Applicant should possess a M.S. in Agribusiness or Agricultural Business and Economics. A Bachelor of Science in a closely related discipline may also be considered if it is determined that their background and experience are sufficient. Applicant must meet the minimum admission requirements of the University and the Department of Agricultural and Applied Economics.

Stipend: \$20,000 per year plus health insurance

Application Deadline: March 15, 2021

Application procedure: Applicant should go to <http://www.depts.ttu.edu/gradschool/admissions/ProspectiveStudents.php> to apply to the graduate program. Visit our webpage at <http://www.aaec.ttu.edu/> to learn more about our program.
